Be identified. Be recognized!

EMBROIDERED emblems

Embroidered Emblems are manufactured with 100% polyester twill fabrics and 100% polyester embroidery threads, with up to 15 colours per design. They can be formatted into many different shapes and sizes, and can be finished with or without a Merrow border.

EMBROIDERED SAFETY emblems

Reflective

HiVis

Flame Resistant

160 Neon Yellow

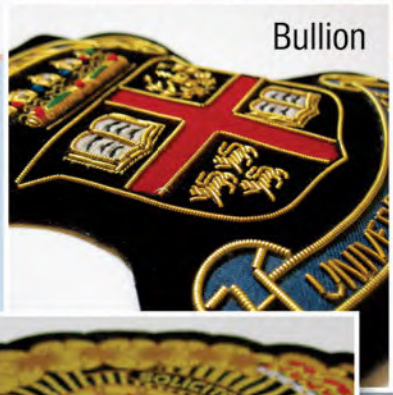
161 Neon Orange

162 HiVis Yellow

163 HiVis Pink

Embroidered Safety Emblems can be used to embellish garments and safety wear, which are worn in low-light or dark conditions, and on uniforms that require elevated safety and flame resistant standards. Using various types of reflective fabrics, high visibility twills and top-level flame resistant materials, these emblems add an extra level of wearer safety.

SPECIALTY emblems

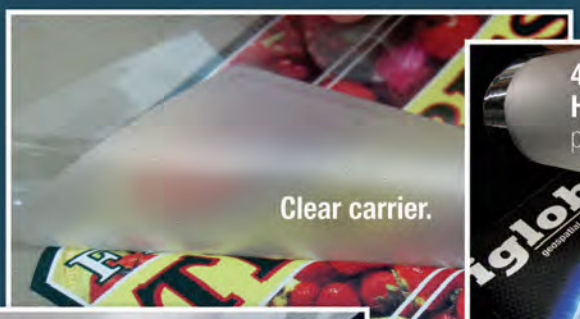


Specialty Emblems are used in all walks of life, to embellish a wide range of industrial garments, military and service uniforms, career-wear, sportswear, recreational clothing and other textile products. They are used to project a corporate image; to promote a brand; to identify group membership and rank; and to signify team spirit.

SubliPrint™

SubliPrint™ Emblems are manufactured using 100% polyester twill fabrics, digitally printed through a sublimation transfer process.

UltraTranz™ Transfers



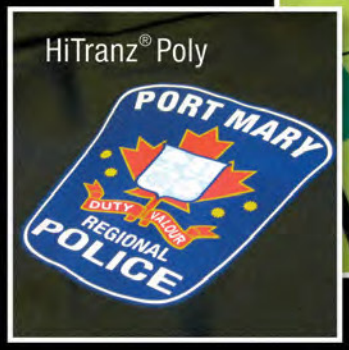
40% to 70% stretch extension

eco-friendly

UltraTranz™ transfers are available in two formats, **FLEX** and **PLUS.** Both variations are manufactured using advanced digital printing systems, which create high resolution, four colour process designs. **UltraTranz™ FLEX** transfers are produced with non-solvent, eco-friendly coatings and adhesives, geared for career-wear, sportswear, recreational clothing and other textile products. **UltraTranz™ PLUS** transfers are produced with solvent-based coatings and adhesives, which also include **flame resistant (FR)** properties, ideal for mild industrial laundry exposure.

HiTranz® Poly

HiTranz® Poly transfers are manufactured with specially formulated technical inks, coatings and adhesives, which are fully industrial launderable to wash temperatures of **200ºF (95ºC)**. These transfers are primarily used to embellish uniforms, work-wear, clean-room gear, high visibility garments and flame resistant clothing. **HiTranz® Poly** transfers can also be manufactured with anti-static **(PolyAS)** or flame resistant **(PolyFR)** ink and adhesive compositions, best suited for these types of specialized garments.

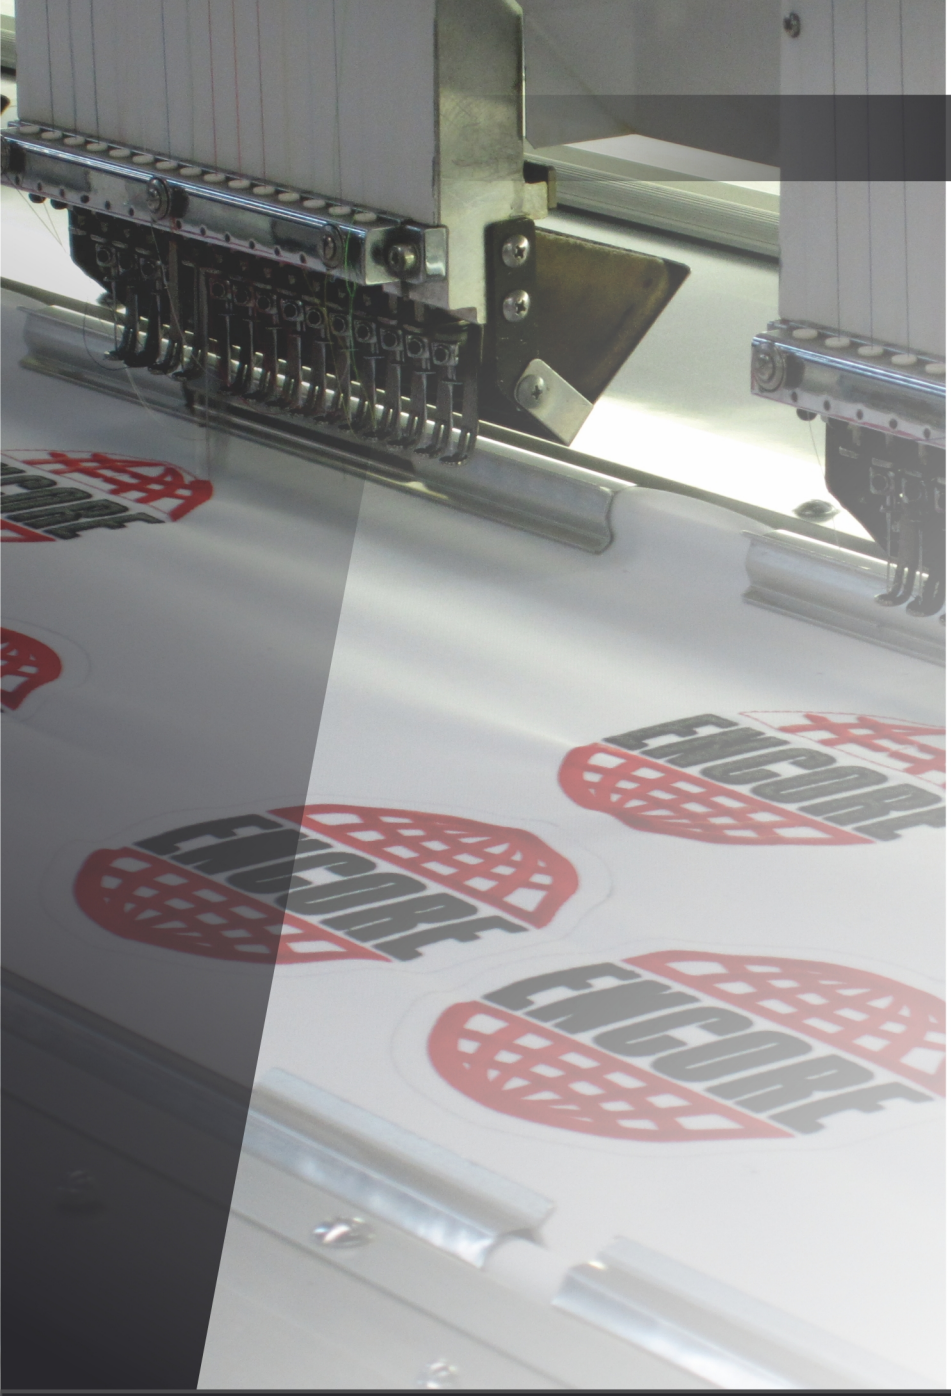


Reflective Transfers and Emblems

Reflective Transfers are produced with a range of **3M™ ScotchLite™** retroreflective transfer films, which carry various CSA, ANSI, ISEA and NFPA certifications. The transfers are cut and formatted to be heat seal applied directly to garments and textiles. As an alternative, Reflective Transfer Emblems are manufactured with 100% polyester twill or flame resistant fabrics, which can be sewn onto uniforms and safety wear. The emblems can also be removed as required.

HiTranz® Reflective

HiTranz® Reflective Transfers are printed with specially formulated inks that contain reflective additives. These transfers can be heat seal applied directly to garments and textiles, and designs can be formatted with a range of features and intricate details.



Emblemtek Solutions Group Inc.

Emblemtek is a leading North American manufacturer, distributor and service provider of a wide assortment of garment and textile embellishment, identification and branding products. This spectrum includes embroidered and printed emblems; flame retardant and reflective emblems; woven emblems and labels; PVC patches; chenille and bullion crests; garment and textile transfers; and uniform identification labelling supplies. We use innovative techniques, quality materials, and integrated processes to create the perfect blend of technically advanced embellishment solutions.

Manufacturing in Canada since 1980, our teams work closely with business partners within the uniform rental laundry; commercial dry-clean laundry; textile and workwear manufacturing; retail career wear; imprinted sportswear; promotional marketing; and hospital and institutional laundry marketplaces. Emblemtek also works directly with select recreational and charitable organizations, including Scouts and Girl Guides. We provide our customers with a high level of dedicated, flexible service with extremely short lead times, and a history of measured performance and workmanship.

Collectively, we are committed to our 6StepService® program, and to building lasting and sustainable relationships with our customers, business partners and communities. Emblemtek is a founding member of a global network of independent and diverse companies, working together as allied manufacturers, partners, and representatives. This multifaceted group combines and leverages the talents of experienced individuals, innovative product configurations and multiple production locations, to best support evolving customer and market needs, worldwide.
