

PennEdge[®] Custom Emblems

Embroidered emblems
with an exact fabric match.

PennEdge® Embroidered Emblems are a patented product format that uses various types of shirt-weight materials which are produced in combination with thinly stitched, colour coordinated embroidered borders as part of the design element. The poplin, poly-cotton, polyester or flame resistant materials are chosen from a select range of popular workwear and career wear shirts currently available from leading uniform textile manufacturers.

The emblems are manufactured with 100% polyester embroidery threads, with up to 15 colours per design, including the border, and can be finished with high-melt, low-melt or non-woven backings. When heat sealed or sewn onto matching workwear shirts, the emblems blend into the garment resulting in a simulated direct embroidery look. Other design features can be introduced to the embroidery, such as watermarks and background stitch patterns. The emblems are industrial and commercial launderable, relative to backing type and application method, and are removable, allowing for garment re-use or re-branding.

Stitched border

Multiple thread colours

FEATURES

- ✓ Fully integrated appearance.
- ✓ Uniform shirt-weight materials.
- ✓ Matching stitched borders.
- ✓ Charted colours.
- ✓ 100% polyester embroidery threads.
