Be identified. Be recognized!

Garment Identification Label Tapes

IN-HOUSE LABEL PRINTING

Colour Coding Dots are used to quickly mark or track garments and textiles by way of colour identification.

Desktop Thermal Label Printer

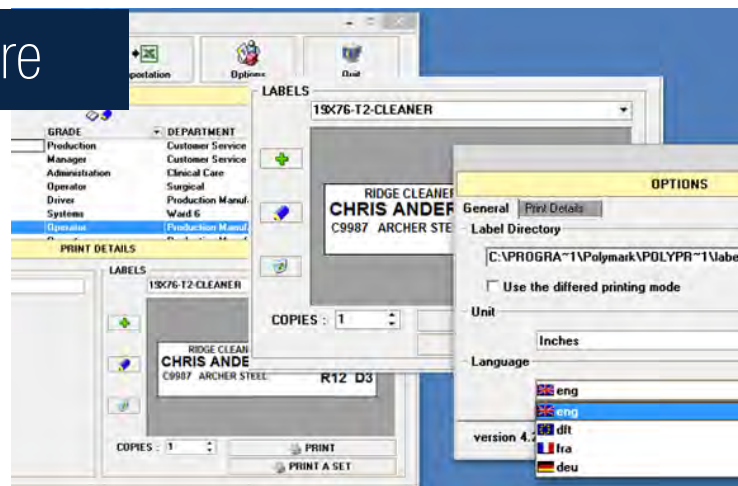

Garment Identification Labels are primarily used to mark, identify, sort and track garments and linens within a laundry processing or textile manufacturing environment. They are commonly applied to uniforms; workwear; career wear; hospital garments; hospital and nursing home linens; nursing home resident garments; and hotel and restaurant linens.

Label Tape Rolls & Ink Ribbons

Label Software

Easy to use standalone software programs, specifically designed for low to medium volume garment identification label printing. The programs operate on a Microsoft® Windows® platform, and includes a user interface that is easy to understand. The software is capable of functioning with many of the popular thermal printer models that are geared for garment identification label printing.

Textile Mending Patches

Textile Mending Patches are used to repair rips, tears and holes that form in various types of uniform, linen and textile products, such as work shirts and work pants; hospital linens and uniforms; nursing home linens; and hotel and restaurant linens. Patches are also used to bind pant hems, to join seams and to apply radio-frequency tags to garments and linens for tracking and sorting purposes.

Heat Seal Machines

Compact and portable heat seal machines are a perfect solution for low to medium volume application needs. These manually operated machines are equipped with smaller irons suitable for label, transfer and mending material application. They are available in different model formats, including optional bottom iron heat and automatic release configurations. The machines feature an easy-grip closure handle, and separate analog operating, temperature and timer controls.

QwikTranz™ Textile Marking Transfers

QwikTranz™ Transfers can be heat seal applied in a matter of seconds to a wide range of textiles, linens and uniforms. Registration, alignment or guide marks can be added to the designs for continuous, reel to reel heat seal application. The transfers can also be pre-cut and boxed, allowing for fast, single transfer application.

**Laundry resistant

Light-weight tissue carrier.

**Heat seal
application.**

UltraTranz™ & HiTranz® Garment & Textile Transfers

These transfer designs are printed directly onto a clear carrier sheet, which allows for accurate positioning on the garment prior to application. UltraTranz™ and HiTranz® transfers are heat seal applied in a matter of seconds, and the carrier sheet can be removed from the garment while the transfer is still warm.

Embroidered Emblems

Emblemtek Solutions Group Inc.

Emblemtek is a leading North American manufacturer, distributor and service provider of a wide assortment of garment and textile embellishment, identification and branding products. This spectrum includes embroidered and printed emblems; flame retardant and reflective emblems; woven emblems and labels; PVC patches; chenille and bullion crests; garment and textile transfers; and uniform identification labelling supplies. We use innovative techniques, quality materials, and integrated processes to create the perfect blend of technically advanced embellishment solutions.

Manufacturing in Canada since 1980, our teams work closely with business partners within the uniform rental laundry; commercial dry-clean laundry; textile and workwear manufacturing; retail career wear; imprinted sportswear; promotional marketing; and hospital and institutional laundry marketplaces. Emblemtek also works directly with select recreational and charitable organizations, including Scouts and Girl Guides. We provide our customers with a high level of dedicated, flexible service with extremely short lead times, and a history of measured performance and workmanship.

Collectively, we are committed to our 6StepService® program, and to building lasting and sustainable relationships with our customers, business partners and communities. Emblemtek is a founding member of a global network of independent and diverse companies, working together as allied manufacturers, partners, and representatives. This multifaceted group combines and leverages the talents of experienced individuals, innovative product configurations and multiple production locations, to best support evolving customer and market needs, worldwide.

Emblemtek is pleased to offer you service in English or French, Canada's official languages. **This literature is available in French.**
