- ✓ High Visibility; Reflective; Flame Resistant fabric options.
- ✓ Low quantities.

# Embroidered Text Emblems

Simple and effective personalization.

Embroidered Text Emblems allow for simple identification and personalization of garments, as name crests, job titles or company emblems, when no logo designs are required. They are manufactured with 100% polyester twill fabrics and 100% polyester embroidery threads, with one text colour and font style per emblem, and are finished with a Merrow border. From a list of charted shapes and sizes, Embroidered Text Emblems are produced with a choice of high-melt glue, low-melt glue, non-woven or Velcro® backings, and can be heat sealed or sewn onto a wide variety of garments and uniforms. The emblems are removable, and are industrial and commercial launderable, relative to backing type and application method.

Embroidered Text Emblems can also be produced with high visibility fabrics and threads, flame resistant fabrics and threads, or with 3M™ reflective materials, all of which provide an added measure of wearer visibility and protection to safety uniforms.
